At The University of Alabama, we measure impact through real, enduring outcomes. By engaging and harnessing the collective, our vision is to produce life-changing results. We understand the impact of what we do and take pride in our ability to help others.

Truly, UA has a far-reaching, positive effect on every county in Alabama, on the nation and on the world. Through community outreach, advanced research, economic development and academic programs, the Capstone is changing lives in meaningful and measurable ways.

Our more than 117,000 alumni who call the state of Alabama home are revolutionizing the local communities where they live and work. Our current and compassionate students have contributed over a million hours of community service during the past year, to transform the lives of businesses, families and individuals in significant ways.

We believe UA is the place Where Legends Are Made, and legendary impact is part of our rich history and our enduring legacy. Our impact is also the guiding force of the future. We take seriously our commitment to educating the trailblazers, innovators, experts and thought leaders of tomorrow. With global influence, we are changing the world.

We will continue to partner with you as we steadfastly add new programs, recruit the best and brightest students, and employ and retain renowned faculty. We embrace our goal of educating a skilled workforce and citizenry for our state. As you will see from this brief report, The University of Alabama has significant statewide economic, community and academic impact, and we had a record year in sponsored funding and research awards.

We greatly appreciate the role you play, as well, in impacting the state of Alabama in valuable ways. The future of The University of Alabama and our communities is bright, and we appreciate your help in lighting the path and being part of the journey.

Impact matters. We are pleased to share our recent results.

Sincerely,

Stuart R. Bell
President, The University of Alabama

The mission of The University of Alabama is to advance the intellectual and social condition of the people of Alabama through quality programs of teaching, research and service. A wide range of programs enable the University to make significant contributions to economic development state-wide that benefits communities, businesses, government and individuals. UA is a student-centered research university with an academic community united in its commitment to enhance the quality of life for all Alabamians. UA’s vision is to be the university of choice for the best and brightest students in Alabama and all students who seek exceptional educational opportunities.

**Statewide Impact**

The total statewide impact of UA is both impressive and far-reaching, including:

- $2.6 billion economic impact
- 13,217 jobs
- $128.3 million in income and sales taxes ($39.7 million state sales tax; $38.9 million state income tax; $49.7 million local sales tax)
- Compared to the $148.4 million state appropriation for the year, the $2.6 billion impact translates to $17.50 impact for every $1 of state appropriation
- The game day impact was also significant. The seven home football games had a total impact of approximately $19.2 million in the Tuscaloosa metro area, and $25.8 million statewide
- Many other activities draw in visitors, such as conferences, seminars, lectures, sports events, Honors Day, commencement ceremonies, homecoming, band competitions, alumni weekends and reunions, and other educational programs

- International students at The University of Alabama contributed $46.4 million to the local economy through paid tuition, living expenses, books, fees and other related expenses. (This figure has been adjusted to account for scholarships, stipends and awards to the students)
- The Alabama International Trade Center provided export assistance to 1,045 companies in 60 countries. AITC assistance enabled companies to export Alabama-made products and to secure $45.8 million in capital to support export sales growth
- 14,099 business were served with advising, training and financing services in 67 counties. $316.4 million in capital was secured for small business growth
- ACRE Ed taught 73 three-hour Real Estate Continuing Education (CE)s to approximately 5,900 licensees at 17 different venues
- Eight outdoor recreation projects were completed statewide with Alabama Trails Commission (ATC) to enhance the development and use of recreational trails throughout the state through policy, advocacy, research, public outreach and technical assistance. In addition, one 100 Alabama Miles Challenge project and one Recreational Trail User Survey project with ATC was completed
- 11,839 K-12 education professionals around the state attended training and conferences for continuing education credits or to maintain standing in professional organizations
- Seven projects with East Alabama Tourism were completed to increase tourism and heritage-based outdoor recreation throughout the region
- 8,478 community leaders and professionals from Alabama attended conferences and/or trainings to enhance their knowledge and skills and/or improve efficiency in the workplace
- Twelve counties in Southwest Alabama, in conjunction with the Alabama-Tombigbee Regional Commission and the Ala-Tom Resource Conservation and Development Council, completed tourism development projects
- Seven counties in West Alabama participated in tourism projects to develop and strengthen local economies
• 67 counties participated in the AL-MS-TN Rural Tourism Conference to promote rural tourism
• Five economic projects were completed through Alabama Association of Community Development Corporations
• The Cartographic Research Lab and the Alabama Alcohol Beverage Control Board began conducting a spatial assessment of all licensed retail liquor establishments in the state, which included the economic impact of sales, demographic analysis of the markets area and compliance with the Boards regulations
• Through the Alabama Productivity Center, 373 technical assistance and training projects were completed with 148 companies served and 391 persons trained, with a total client reported cost savings of $70,347,048, 76 jobs created, 876 jobs retained, 37,000,000 gallons of water potentially conserved, 407,340 kWh energy conserved, 310 tons of carbon reduced and 2,300 pounds of hazardous waste reduced
• The Cartographic Research Lab produced dozens of maps in support of projects undertaken by The University of Alabama Center for Economic Development and held a similar support role with the Center for Business and Economic Research
• The Cartographic Research Lab added over 10,000 historical aerial photographs to an online collection (found at alabamamaps.ua.edu), vital for ascertaining previous land use/land cover data for sites under review for potential development
• The Cartographic Research Lab provided spatial and demographic analysis for several federal and state court cases that dealt with matters pertaining to violations of the Voting Rights Act
• The Alabama Department of Revenue website was redesigned resulting in increased monthly visitors to the site by three percent; decreased bounce rate by over six percent; increased session duration by 40 percent; and led to less taxpayer frustration and increased compliance
• Interactive real estate data tool developed for the state of Alabama, 23 real estate associations and the state’s new construction industry
• Alabama Monthly New Construction Report published to serve the statewide home building industry and provide new construction statistics, analysis, trends and forecasting
• 13,915 companies assisted with advising, training and financing services for small businesses
• 10,851 occupational health safety and/or environmental trainings, consultations and testing provided by UA SafeState
• UA’s Center for Sedimentary Basin Studies performed various geoscientific studies to support and enhance oil and natural gas exploration and development in the region; research focused on the geological parameters that control oil and gas accumulations and emphasis placed on dissemination of this information to industry and other interested parties
• UA students served as IRS VITA volunteers at various tax sites, preparing tax returns for 36,137 families, securing $55,616,641 in refunds and saving families $13,129,800 in tax preparation fees
• UA’s Center for Advanced Public Safety (CAPS) developed an AL Voluntary Disclosure-online application in partnership with the Alabama Department of Revenue (ADOR) for a Voluntary Disclosure Program as a service to business taxpayers who are not in compliance with Alabama tax laws to come forward voluntarily to register and become compliant in their tax filing obligations; historically ADOR receives 100-150 applications per year which generate $5M+ in delinquent tax collection
• CAPS updated the Alabama Tax Amnesty Program public information website, as well as the online application site, and revised the marketing materials, including a tutorial video. In addition, CAPS placed a statewide media buy using digital, social, radio, indoor screens and out-of-home advertising. 572 amnesty applications were received; final numbers on dollars collected have not been compiled to date. The results of the marketing campaign were: 20 thousand direct website sessions, 345 thousand social reaches, 2 million-plus billboard impressions and 51 million-plus screen impressions
• CAPS partnered with the Alabama Department of Transportation (ALDOT) and uploaded over 12,000 documents for over 2,800 projects as part of the GeoGIS web-based geotechnical database management system
• UA’s Center for Economic Development (UACED) provided marketing and technical assistance to many organizations around the state
• The Alabama Industrial Assessment Center (AIAC) performed 147 industrial energy assessments at manufacturing sites
• The Central Analytical Facility executed numerous projects using state-of-the-art micro-analytical and microstructural characterization analytical facilities for material applications to advanced manufacturing industries (e.g. automotive, aerospace, defense, communications, semiconductor, energy, steel and medical)
• Four steel sculptures created by students and faculty at UA’s Department of Art and Art History raised $13,129,800 for the 9th Annual Nucor Children’s Charity Classic silent auction
• UA Art and Art History undergraduate art majors, a staff member (who is also an alumnus), and a professor raised $78,000 for Children’s of Alabama, the only medical center in the state dedicated solely to the care and treatment of children and serving as the primary site for University of Alabama at Birmingham pediatric care
• UA’s Institute for Business Analytics conducted (continued on next page)
numerous investigations that identified clinically at-risk Alabama Medicaid enrollees, measured impact and quality of policies and programs, and produced academic publications to advance knowledge and discoveries related to health and economic matters of the enrollees and the agency

• Over the past seven years, UA faculty and staff participated in the Monster Makeover fundraising exhibition for Tuscaloosa City and County Schools; artworks created were auctioned to raise funds for different schools each year

• Since the founding of The University of Alabama Family Medicine Residency by the College of Community Health Sciences more than four decades ago, nearly 500 physicians have received specialty training through the three-year program. In Alabama, one of every seven practicing family medicine physicians is a graduate of UA’s Family Medicine Residency; 85 percent of the residency graduates practice in the Southeast.

• UA Art Foundry, in partnership with O’Connor Studios, was awarded the $650,000 commission to make 48 high-relief bronze plaques of the history of Alabama to be installed in the new Bicentennial Park around the Capitol Building in Montgomery in 2019

Statewide academic and community outreach

• UA students performed over five million hours of community service around Alabama

• UA’s United Way drive raised $469,483 in 2018, the highest dollar giving total in campaign history

• UA’s student-run Dance Marathon program donated more than $1 million over a seven-year period to Children’s of Alabama

• UA finished the 2018 Beat Auburn, Beat Hunger food drive by collecting 309,194 pounds of food

• Users for The University of Alabama Safety Alert mobile application, which provides students and employees with immediate access to information in case of an emergency, increased to 4,200; users receive exclusive UA Alerts and current UAPD advisories for up-to-date information

• 10,578 persons with physical, cognitive and mental health disabilities in Alabama received free, unduplicated legal services

• The Positive Behavior Support Program was implemented in eight Alabama districts, including 122 partner schools and involving 61,000 Alabama students

• Hosted in collaboration with AIME, the 2014 Edward K. Aldag, Jr. Business Plan Competition provided winning business plans with startup funding and in-kind services

• The EDGE Demo Day provided a chance for several EDGE-affiliated companies to showcase their work to the public. Attendees learned about the journey these companies traveled from inception to their current state

• 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning, supported by UA’s College of Continuing Studies

• The River Pitch Business Idea Competition was held for community members to pitch business ideas in just three minutes; participants competed for prize money and received valuable feedback on their business idea. This outreach event provides momentum for entrepreneurs to develop ideas into businesses

• Through a hypertension initiative, the UMC Northport clinic staff treats approximately 1,200 patients per month; a hypertension template was placed within the electronic medical records to notify providers when patients had elevated blood pressure readings

• Through the Center for Advanced Public Safety and the College of Engineering, more than 500 surveys were collected from residents; multiple community meetings were held to share research results with weather response partners and residents

• 40 interviews, including 18 administrators, 15 providers and seven patients were held as part of The Alabama Initiative for Integrated Primary Care Behavioral Health study to determine the state of behavioral health integration among Alabama federally qualified health centers

• 625 high school students in the state of Alabama enrolled in UA Early College, which admits rising high school sophomores, juniors and seniors to earn college credit through UA

• 834 high school students in the state of Alabama took UA courses online or on campus

• 5,703 course credit hours were earned by Alabama residents enrolled in UA Early College, which allows students to earn up to 30 hours of college credit while enrolled in the program

• 1,885 total courses were taken by Alabama residents enrolled in UA Early College

• AlaFire volunteer firefighter mobile application data collection completed 1,540 Android downloads and 14,102 iOS downloads

• Approximately 50 participants were involved with the AgrAbility Feasibility Study to help farmers who have stopped farming due to injury-related disabilities return to production agriculture; cooperative agents and rehabilitation counselors were surveyed

• Tuscaloosa County Sheriff’s Office (TCSO) mobile application re-design resulted in 34,000 Android downloads and 109,024 iOS downloads

• Schoolyard Roots worked with 16,632 children in 11 schools; more than 600 UA students volunteered with the program
The UA Anthropology Department provided a service and how stress responses “get back out”
how emotion communication “gets under the skin”
autonomic nervous system, they are understanding moment-to-moment monitoring of activity in the
regulation in stress-response systems; by combin

The UA Anthropology Department conducted a study vehicle assembly
internship) saved Mercedes-Benz over a million dollars
Through “Two Steps Ahead” German Internation
were published by the UA Printing Press
61 books on the history, culture and art of Alabama
73 three-hour real estate continuing education courses provided for external stakeholders
Parenting Assistance Line (PAL) is a statewide number for caregivers (parents, grandparents, childcare etc.)
that is free, confidential and provides education, sup-
and law enforcement

CAPS and the College of Engineering surveyed and interviewed a cohort of over 300 households regarding
how they responded to weather warnings during the 2017 tornado season
Statewide high school physics contests, astronomy public nights and science demos were conducted by
the UA Physics Department
State-specific tourist maps were donated to map libraries and geography departments all over the conti-
mental United States
In response to the growing threat of antibiotic resistance, a project involving interviews of medical providers and patients in Alabama about their levels of knowledge, sources of information and adherence to antibiotic regimens was conducted to provide educational materials for health clinics in Alabama
The Office of Equal Opportunity Programs (EOP) held annual diversity and inclusion conferences to provide opportunities for diversity leaders, researchers and educators from the state and throughout the region to make presentations about their research and collabo-
rate on best practices for diversity
The Institute for Rural Health Research (IRHR) con-
ducted a study of the prevalence and predictors of child abuse in Alabama; the number of cases was adjudicated
1,094 deaths were reviewed by the IRHR and the Alabama Child Death Review System to produce the Alabama Child Death Report in an effort to under-
stand how, where and why children die in Alabama in order to prevent similar deaths in the future
An undetermined number of patients were seen through the Telepsychiatry Program, an initiative fund-
ed by the U.S. Department of Agriculture to provide telemedicine and tele-education access to patients and health care providers in rural Alabama

how emotion communication “gets under the skin”

The UA Anthropology Department provided a service

on a need-basis determined by the Alabama Bureau
of Investigation, Tuscaloosa Sheriff’s Department and
the FBI. The service involved searching for human
remains either with the help of cadaver dogs or by
survey methods and then excavating and recovering
cadaver or skeletal remains to bring closure to families
and law enforcement
UA’s goal to educate a skilled workforce and citizenry programs continue to transform the campus and fuel dance. These new and expanded graduate education master’s programs, four new doctoral programs and for the state, nation and world
• UA is collaborating with 130 public universities across the nation to increase college access by removing barriers and helping low-income minority and first-generation students to graduate by the year 2025
• UA’s College of Community Health Sciences announced a partnership between CCHS and Alabama Statewide Area Health Education Centers to extend educational and training opportunities to high school students in rural areas of Alabama
• Orientation training provided for sheriffs in Alabama
• Belser-Parton Literacy Center provided resources to hundreds of students, teachers and parents across the state
• Publication of the State Elections Handbook, the State Legislators Handbook, the Alabama Government Manual and the Sheriff’s Handbook through UA’s Alabama Learning Initiative (ALI)
• Brewer-Porch Children’s Center provided residential services in 45 counties for children with emotional/behavior disorders
• Staff from the Alabama Museum of Natural History (AMNH) visited elementary, middle and high school students cross the state, providing educational programs in history and science to 8,795 students
• 1,065 individuals of many ages participated in various interactive science education programs through AMNH on campus
• The Institute for Social Science Research (ISSR) conducted the assessment of the Alabama Accountability Act, the state’s scholarship program for low-income students to attend the public or private school of their choice
• Through the Center for Ethics and Social Responsibility (CESR), 9,187 children were screened for vision problems; 913 vision problems were detected in children, all of whom received free follow-up care
• 48 Rural Medical Scholars
• The Center for Advanced Public Safety (CAPS) is

• The River Pitch Business Idea was held for community members to pitch business ideas; the outreach event provided momentum for entrepreneurs to develop ideas into a productive, marketable business
• The Alabama Quality STARS QRIS Enhancement Program provides technical assistance to childcare providers that wish to be rated by the Alabama Quality STARS program. The program provided: 363 child care center site visits; 79 classroom curricula sets and 571 classroom materials kits to child care centers; 93 classroom materials kits to family child care home providers; 5 QRIS Group and Family Child Care Home Pilot Orientation sessions; 32 FCCERS-R assessments; 32 BAS assessments; and 32 Alabama Quality STARS QRIS Group and Family Child Care Pilot STARS Standards assessments
• Eight outdoor recreation leadership workshops were held with Alabama Trails Commission (ATC)
• 61,000 Alabama students and 122 partner schools participated in the Positive Behavior Support program
• 13 schools statewide participated in the Alabama Bicentennial Bookshelf program which encourages students through young adults to explore and experience the state of Alabama through books about Alabama or by authors born and raised in Alabama
• Attorneys received continuing legal education training in compliance with the Alabama State Bar 7,943 times
• Most schools in the state visited the Alabama Museum of Natural History for tours and hands-on learning experiences about Alabama history, general geology, paleontology, biodiversity and evolution
• 12,741 individuals were taught Bystander CPR, and 21,732 individuals were taught Healthcare Provider CPR
• 5,599 patients were placed in the Trauma Alert System, a statewide alert system to identify the most appropriate health care facility
• 377 patients were placed into the statewide Stroke Alert System
• Career exploration camps provided statewide
• Alabama Prison Arts + Education Project provided to give educational opportunities to inmates in Alabama correctional facilities
• In the last two years, UA has approved 12 new master’s programs, four new doctoral programs and four graduate certifications, including an MFA in dance. These new and expanded graduate education programs continue to transform the campus and fuel UA’s goal to educate a skilled workforce and citizenry
developing and implementing a uniform integrated response protocol for juvenile victims of human trafficking in Alabama

- 503 trainings were held and 2,093 participants were served through the Child Development Resources (CDR) training program which provided ongoing professional development training, workshops, conferences and mentoring to childcare providers, including centers, family childcare homes and group homes

- CDR served 110 teachers through the Learning Center and 503 training sessions to 2,093 participants and 76 providers through the Rolling Resource Van to support and enhance the environment and learning in early childhood settings

- 12 churches and 199 congregational members across the state received anti-stigma intervention for HIV/AIDS in rural churches

- Professors, instructors and graduate students provided a studio art experience in ceramics, printmaking, painting, sculpture and digital media for 55 ninth-grade campers/high school students for one week as part of LEAP (Leaders Exploring Academic Possibilities Program) Early College Camp

- Over 6,850 county residents received continuous legal education in compliance with the Alabama State Bar

- 770 participants were involved with the Culverhouse LIFT (Learning Initiative and Financial Training) program designed to reach out to the Tuscaloosa and West Alabama communities and use University resources, both financial and human capital, to improve the job skills of the adult and teen populations

- 933 mental health services were performed through the Capstone Family Therapy Clinic by master’s level therapists training in the Marriage and Family Therapy Program

- The Department of Chemistry and Biochemistry provided summer research programs for high school teachers and students from across the state to focus on clean energy research

- The Department of Chemistry and Biochemistry hosted American Society for Materials workshops during the summer to help teachers and pre-professional teachers learn about concepts of materials chemistry that could be applied in their high school science courses

- The UA English Department’s Writing Center offers language arts/writing tutoring to K-12 students and adult community members through the Community Writing Center at the Weaver-Bolden Branch of the Tuscaloosa Public Library

- Schoolyard Roots (Druid City Garden Project) designed and built large, durable cypress planting beds for Central Elementary, Flatwoods Elementary, Alberta Elementary, Crestmont Elementary, Verner Elementary and Buhl Elementary

- Public outreach and education featuring rotating book art exhibitions were provided for children and adults to further the public’s understanding of the relevance of creative expression and the art of the book
UA economic outreach

- 81 companies assisted with advising, training and financing services for small businesses
- Six companies provided with international trade assistance
- 307 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 191 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 95 organization and community leaders trained to improve workplace effectiveness

UA community outreach

- Two speech and hearing services provided to county residents
- 128 individuals with disabilities received legally based advocacy services
- 74 individuals received occupational health and safety training
- 22 county residents received environmental training
- 20 companies received onsite occupational health and safety consultations

UA academic programs outreach

- Onsite environmental consultations provided to two companies
- Three companies/building owners received onsite environmental testing
- Residential services provided for children with emotional/behavioral disorders

UA institutional metrics

- 681 alumni living in county
- 122 students enrolled in Fall Semester 2017 (108 undergraduate, 13 graduate, 1 advanced professional)
- Degree Year 2017: 45 total graduates (33 bachelor’s, 10 master’s, 2 doctoral)
- Average ACT for Fall 2017 first-time undergraduates: 26.28
**UA economic outreach**

- Various geoscientific studies conducted to support and enhance oil and natural gas exploration and development in the region
- Three Alabama Indigenous Mound Trail Projects to increase visitors at publicly accessible Native American earthwork sites
- $138 million Gulf State Park redevelopment/enhancement project
- Six planning and community development projects (retail, commercial analysis and comprehensive plan)
- 1,624 insurance professionals gained or maintained licensure through testing administered by UA for the state
- Two business and industrial environmental practices training projects (one company served; 18 persons trained)
- 912 companies assisted with advising, training and financing services for small businesses
- 49 companies provided with international trade assistance
- 20 technical assistance projects provided to communities to strengthen their long-term economic success through assistance with developing and updating five-year strategic plans and five-year comprehensive plans
- Residential services provided for children with emotional/behavioral disorders
- 99 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 185 organization and community leaders trained to improve workplace effectiveness
- Research conducted to assess the discharge of nutrients from the regional aquifers to the coast with direct impact on the quality of drinking water in the area and on ecological health and economics of the region
- Two industrial energy assessments performed; recommended savings were typically five percent to 20 percent of site energy costs

**UA community outreach**

- Four speech and hearing services provided to county residents
- 222 individuals with disabilities received legally based advocacy services
- 136 individuals received occupational health and safety training
- 28 county residents received environmental training
- 55 companies received onsite occupational health and safety consultations
- One client provided mental health services through the Marriage and Family Therapy program

(continued on next page)
UA academic programs outreach

- 165 county residents received continuing legal education training in compliance with the Alabama State Bar
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- One field science program completed for middle school students, high school students and the general public to teach archaeological methods and research, leadership, communication, teambuilding, reasoning and organizational skills through experience-based learning
- Six online Japanese language courses offered for off-campus persons (including high school students through Early College Program and adult learners)
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at 38 birding trails’ outdoor classrooms
- Research conducted to assess the extent and severity of saltwater intrusion into regional aquifers; assessing aquifer degradation has direct impact on the quality of drinking water in the area and helps determine resource availability and economics in the region
Barbour County

UA institutional metrics

- 205 alumni living in county
- Degree Year 2017: 12 total graduates (10 bachelor’s, 2 master’s)

UA economic outreach

- 41 companies assisted with advising, training and financing services for small businesses
- Ten companies provided with international trade assistance
- Five technical assistance projects provided to communities to strengthen their long-term economic success through assistance with developing and updating five-year strategic plans and five-year comprehensive plans
- 61 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 123 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations

- “Why Books?” lecture presented by the Osher Lifelong Learning Institute (OLLI) as part of a community outreach about the significance of books as form of artistic expression
- Residential services provided for children with emotional/behavioral disorders

UA community outreach

- Two speech and hearing services provided to county residents
- 164 individuals with disabilities received legally based advocacy services
- 104 individuals received occupational health and safety training
- 895 alumni living in county
- 134 students enrolled in Fall Semester 2017 (119 undergraduate, 13 graduate, 2 advanced professional)
UA institutional metrics

- 456 alumni living in county
- 68 students enrolled in Fall Semester 2017 (61 undergraduate, 7 graduate)
- Degree Year 2017: 10 total graduates (6 bachelor’s, 4 master’s)
- Average ACT for Fall 2017 first-time undergraduates: 24.17

UA economic outreach

- Four technical assistance projects provided to communities to strengthen their long-term economic success through assistance with developing and updating five-year strategic plans and five-year comprehensive plans
- Seven projects to increase tourism and heritage-based outdoor recreation throughout the region
- 37 companies assisted with advising, training and financing services for small businesses
- Two companies provided with international trade assistance
- 196 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 112 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 43 organization and community leaders trained to improve workplace effectiveness

UA community outreach

- 51 individuals with disabilities received legally based advocacy services
- 27 individuals received occupational health and safety training
- 11 county residents received environmental training
- Ten companies received onsite occupational health and safety consultations
- Four companies/building owners received onsite environmental testing
- Residential services provided for children with emotional/behavioral disorders

UA academic programs outreach

- 50 county residents received continuing legal education training in compliance with the Alabama State Bar
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at six birding trails’ outdoor classrooms, one birding trails’ interpretive signage and site launches
UA institutional metrics

- 20,063 alumni living in county
- 3,145 students enrolled in Fall Semester 2017 (2,429 undergraduate, 684 graduate, 32 advanced professional)
- Degree Year 2017: 556 total graduates (403 bachelor’s, 8 first professional, 119 master’s, 6 educational specialist, 20 doctoral)
- Average ACT for Fall 2017 first-time undergraduates: 25.71

UA economic outreach

- 21 tourism projects to develop and strengthen the local economy
- Over 400 local community members visited an annual festival co-hosted by the English Language Institute and Tuscaloosa Sister Cities International
- One Alabama Indigenous Mound Trail project to increase visitors at publicly accessible Native American earthwork sites
- 158 technical assistance and training projects (client reported impacts of $33,680,650 in retained sales, cost savings, investments, workforce practices investments, new process and product investments, and saved/avoided investments; 54 jobs created; 39 jobs retained; 37,000,000 gallons of water potentially conserved; 47 companies served; 271 persons trained and 293 student internships)
- 646 companies assisted with advising, training and financing services for small businesses
- 28 companies provided with international trade assistance
- 16,918 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 507 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 1,201 organization and community leaders trained to improve workplace effectiveness
- 17 industrial energy assessments performed; recommended savings were typically five percent to 20 percent of site energy costs

UA community outreach

- 6,022 speech and hearing services provided to county residents
- 1,420 individuals with disabilities received legally based advocacy services
- 493 individuals received occupational health and safety training
- 308 county residents received environmental training
- 178 companies received onsite occupational health and safety consultations
- Onsite environmental consultations provided to two companies
- 805 clients provided mental health services through the Marriage and Family Therapy program
- Tax returns prepared for 6,472 families securing $10,806,974 in refunds and saving families $2,363,700 in tax preparation fee
- UA’s partnership with Tuscaloosa Pre-K has contributed to 2,895 children receiving high quality pre-kindergarten education
- One community outreach program completed
- 134 companies/building owners received onsite environmental testing
- 150 veterans received legal assistance through the volunteer service of UA law students
- EMS Alternative Response Program developed to allow healthcare providers to treat patients at home without requiring transport to the hospital
- 6,243 children screened for vision problems; vision problems detected in 688 children, all of whom received free follow-up care

(continued on next page)
UA community outreach (continued)

• Residential services provided for children with emotional/behavioral disorders
• 5,599 patients in various counties, including Tuscaloosa County, were placed in the Trauma Alert System, a statewide alert system to identify the most appropriate healthcare facility
• Law students volunteered 162 hours to mentor middle school students from area schools
• Through OLLI, senior citizens received individual tutoring in computer and smartphone skills
• A day of outreach and commercial sales of book work provided to the community
• Eight homeowners received assistance in will and estate planning for Habitat Humanity from law students who volunteered 37 hours of service time
• 377 patients, including Tuscaloosa County residents, placed into the statewide Stroke Alert System
• Adults and seniors received training in computer skills (Windows, email, internet, Microsoft Office and Quick-Books)
• 136 patients entered into the Alabama Cardiac Alert System, a statewide cardiac system that helps determine the most appropriate healthcare facility for patients
• 12,741 individuals, including citizens in Tuscaloosa County, taught Bystander CPR, and 21,732 individuals taught Healthcare Provider CPR
• 532 individuals trained on SALT (Save a Life Training)
• Five patients participated in a clinical trial to assess the safety and efficacy of an experimental drug to treat IBS
• Outreach art education and art appreciation activities provided for attendees of the Kentucky Arts Festival
• Books promoted to the local community monthly at the Farmer’s Market at the Tuscaloosa River Market
• More than 30 book talks conducted for OLLI members
• Project conducted to mitigate erosion and loss of cultural resources through the exploration of archaeological remains along Moundville’s northeastern riverbank currently eroding into the Black Warrior River
• Study involving interviews with tornado survivors conducted, mostly with low-income, women of color, about their tornado experiences and economic and emotional well-being immediately following the Tuscaloosa 2011 tornado (one year after the storm and five years later) to fill the gap in literature on long-term recovery after disasters
• HIV and Hepatitis C education, testing and referral to medical care offered to offenders who attended the Tuscaloosa County Parole Office
• Unspecified number of individuals trained through the West Alabama Disaster Health Information Outreach and Collaboration Project funded by the National Library of Medicine to determine informational needs and access points during disaster
• Residents benefited from The Asthma Prevention Project, an ER-based patient identification and follow-up intervention designed to reduce ER visits
• Through the Baby TALK program, 37,156 adults, 11,758 newborns and 42,107 children seen at local hospitals; Baby TALK provides parents with developmental information and support in order to build parental knowledge and confidence and to reduce abuse and neglect
• 1,998 adults and 2,700 children provided with opportunities to check out activity kits to engage in with their families (including resources, books, tips and developmental information)
• 346 children screened through Project LAUNCH and Help Me Grow
• 20 referrals to the UA Autism Disorder Clinic
• 152 referrals to early intervention
• 93 referrals to local education agency special education services
• 118 referrals to home visiting programs
• Nine events provided across the community focusing on low-income areas with 75 children screened
• Four annual events for professionals and parents held, with an average of 250 individuals attending yearly
• 32 professional development trainings for over 175 early childhood education professionals
• Night at the Museum events held at the Alabama Museum of Natural History
• 376 training sessions held and 1,527 participants provided with ongoing professional development training, including workshops, conferences and mentoring for childcare providers in centers, family childcare homes and group homes

UA academic programs outreach

• 451 county residents received continuing legal education training in compliance with the Alabama State Bar
• 152 fifth-grade students participated in an intervention outcome study for children identified as “at risk”; parents were invited to participate in the corresponding parenting program meetings and additional internet modules
• 380 UA students have coached 1,240 Tuscaloosa County children on how to play chess
• 180 seventh-grade students participated in an interven-
Tuscaloosa County

(continued)

- 100+ certified municipal clerks and master clerks provided with business writing training through College of Continuing Studies program
- 30+ academic/consultant services and projects reaching approximately 100 community members trained residents as patient-advisory council members to assist researchers with community-based research
- Tuscaloosa County students received training on ACT preparation, financial literacy, business plan development, professional development and conflict negotiation
- 900 student-led screenings for BMI, glucose levels and blood pressure and education for diabetes management, stress reduction, nutrition and exercise were provided to underserved communities in Tuscaloosa
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- Health fairs, education for pregnant teenagers in public schools and obesity prevention events provided
- Approximately 25-30 HIV clients received rural telemedicine counseling through a study to test the efficacy of group counseling for HIV patients in face-to-face meetings versus a teleconference
- Non-native Hispanic (ESL) students at a local high school received individual tutoring in their regular classrooms
- Students in second and fourth grades (mostly of African-American or Latino heritage) taught an eight-week Book Arts course through a UA partnership initiative at a local elementary school
- Three students presented graduate thesis exhibitions at the Harrison Gallery, including a Q & A session with community members
- Hands-on biology lessons provided to seventh-grade students every two weeks throughout the academic year
- Water quality sampling and research
- K-12 science learning activities provided at two local schools
- 40 writing consultations provided through Language Arts/writing tutoring offered to students in grades K-12 and to community members through the Community Writing Center at the Weaver-Bolden Branch of the Tuscaloosa Public Library
- 100+ certified municipal clerks and master clerks provided with business writing training through College of Continuing Studies
- 631 students at two local elementary schools visited by staff and students from the English Language Institute for culture sharing through games, songs and dance
- Head Start teachers from seven centers, including in Tuscaloosa County, received training in the PATHS Social and Emotional Learning Curriculum and implemented the program in their classrooms. Over 500 students participated in the program and parents were invited to participate in a parenting program
- Creation of a learning lab facility (called the GeoTech Lab) housed at The University of Alabama Natural History Museum where students were taught about 3-D printing, web design, computer programming and gaming, using GPS and creating StoryMaps via an ArcGIS online account; the program also featured Saturday workshops that served as broader public outreach
- “Lunch and Learn” workshops presented to local middle school teachers
- Presentations made to local researchers and clinicians at the Southeast Regional ADHD Conference to address anger and irritability in oppositional children and ways to enhance emotional regulation
- Eight adolescents diagnosed with Autism Spectrum Disorder participated in the Tackling Teenage Together program and SENSE theater program
- 30 elementary students and their parents participated in the Coping Power-Internet Predominant program, and 76 students participated in standard Coping Power meetings
- Field science program with a focus in ecology, water, biodiversity, conservation, environmental issues and impacts, and stewardship education completed with middle school students
- Visits made to elementary, middle and high schools to provide an educational program on topics such as Alabama’s geologic history, paleontology, general geology, water ecology and conservation, aquatic biodiversity, soil types, evolution, and watershed education.
- Watershed education program presented to area fourth graders to teach the importance of watersheds, the origin of drinking water, conservation and stewardship
- One CLC-provided online Chinese and one online Arabic course provided
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at eight birding trails’ outdoor classrooms
- 29 CLC online Japanese language courses offered for off-campus persons (including high school students through Early College Program and adult learners)
- Summer clean energy research programs provided for high school students and teachers
Walker County

UA institutional metrics

- 1,348 alumni living in county
- 143 students enrolled in Fall Semester 2017 (126 undergraduate, 16 graduate, 1 advanced professional)
- Degree Year 2017: 42 total graduates (31 bachelor’s, 1 first professional, 10 master’s)
- Average ACT for Fall 2017 first-time undergraduates: 26.47

UA economic outreach

- Three technical assistance projects provided to communities to strengthen their long-term economic success through assistance with developing and updating five-year strategic plans and five-year comprehensive plans
- 47 companies assisted with advising, training and financing services for small businesses
- 12 companies provided with international trade assistance
- 302 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 181 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 126 organizational and community leaders attended training to improve their effectiveness in the workplace
- Two companies/building owners received onsite environmental testing
- 88 children screened for vision problems; vision problems detected in eight children, all of whom received free follow-up care

UA academic programs outreach

- 73 county residents received continuing legal education training in compliance with the Alabama State Bar
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- Walker County National Guard members participated in small group and interactive exercises in professional development topics (resumes, interviews) and financial literacy (money management and budgeting)
- Alabama Birding Trail Teacher Resource Notebooks provided to assist elementary and middle school teachers
- Two CLC online Japanese language courses offered for off-campus persons (including high school students through Early College Program and adult learners)
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at one birding trail’s outdoor classroom

UA community outreach

- 106 individuals with disabilities received legally based advocacy services
- 60 individuals received occupational health and safety training
- 40 county residents received environmental training
- Seven companies received onsite occupational health and safety consultations
- 143 students enrolled in Fall Semester 2017 (126 undergraduate, 16 graduate, 1 advanced professional)
Washington County

UA institutional metrics

- 173 alumni living in county
- 27 students enrolled in Fall Semester 2017 (26 undergraduate, 1 graduate)
- Degree Year 2017: 11 total graduates (8 bachelor’s, 2 master’s, 1 doctoral)

UA economic outreach

- Various geoscientific studies were conducted to support and enhance oil and natural gas exploration and development in the region
- 19 tourism projects completed
- Four technical assistance and training projects (client reported impacts - $1,173,170 in cost savings, investments and saved/avoided investments; five jobs retained; one company served, 57 persons trained and one student internship)
- 18 companies assisted with advising, training and financing services for small businesses
- Five companies provided with international trade assistance
- 74 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 56 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- One industrial energy assessment performed; recommended savings were typically five percent to 20 percent of site energy costs

UA community outreach

- 17 individuals with disabilities received legally based advocacy services
- 76 individuals received occupational health and safety training
- Five county residents received environmental training
- 26 organization and community leaders trained to improve workplace effectiveness
- One client provided mental health services through the Marriage and Family Therapy program

UA academic programs outreach

- Nine county residents received continuing legal education training in compliance with the Alabama State Bar
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at three birding trails’ outdoor classrooms
UA economic outreach

- Five planning and community development projects (strategic plan, workforce development, advising chamber, business and tourism development)
- 19 tourism projects completed
- Two technical assistance projects with one company served
- 27 companies assisted with advising, training and financing services for small businesses
- 34 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 131 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- One industrial energy assessment performed; recommended savings were typically five percent to 20 percent of site energy costs

UA community outreach

- 75 speech and hearing services provided to county residents
- 25 individuals with disabilities received legally based advocacy services
- Three individuals received occupational health and safety training
- 5,599 patients in various counties, including Wilcox County, placed in the Trauma Alert System, a statewide alert system to identify the most appropriate healthcare facility
- 377 patients, including Wilcox County residents, placed into the statewide Stroke Alert System
- 136 patients entered into the Alabama Cardiac Alert System, a statewide cardiac system that helps determine the most appropriate healthcare facility for patients
- 12,741 individuals, including citizens in Wilcox County, taught Bystander CPR, and 21,732 individuals taught Healthcare Provider CPR
- Over 117 AEDs placed in public buildings around Tuscaloosa and the West Alabama region, including Wilcox County, with training for the devices also provided
- One client provided mental health services through the Marriage and Family Therapy program
- 27 organization and community leaders trained to improve workplace effectiveness

UA institutional metrics

- 130 alumni living in county
- 29 students enrolled in Fall Semester 2017 (26 undergraduate, 3 graduate)
- Degree Year 2017: 13 total graduates (11 bachelor’s, 2 master’s)

UA academic programs outreach

- 12 county residents received continuing legal education training in compliance with the Alabama State Bar
- Community diabetes education provided through a UA student-driven initiative to provide information and tools to those with the disease
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning, supported by UA’s College of Continuing Studies
- 13 book deliveries to schools to increase literacy rates
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at five birding trails’ outdoor classrooms, one birding trail’s interpretive signage and site launches
Winston County

UA institutional metrics

- 410 alumni living in county
- 49 students enrolled in Fall Semester 2017 (39 undergraduate, 9 graduate, 1 advanced professional)
- Degree Year 2017: 12 total graduates (10 bachelor’s, 2 master’s)

UA economic outreach

- Six technical assistance projects provided to communities to strengthen their long-term economic success through assistance with developing and updating five-year strategic plans and five-year comprehensive plans
- 42 companies assisted with advising, training and financing services for small businesses
- Two companies provided with international trade assistance
- 84 insurance professionals gained or maintained licensure through testing administered by UA for the state
- 199 K-12 education professionals attended training and conferences for continuing education credits or to maintain standing in professional organizations
- 54 organization and community leaders trained to improve workplace effectiveness
- One industrial energy assessment performed; recommended savings were typically five percent to 20 percent of site energy costs

UA community outreach

- One speech and hearing service provided to a county resident
- 18 individuals with disabilities received legally based advocacy services

UA academic programs outreach

- Five individuals received occupational health and safety training
- 12 county residents received environmental training
- Five companies received onsite occupational health and safety consultations
- Onsite environmental consultations provided to two companies
- 15 children screened for vision problems; vision problems detected in one child, whom received free follow-up care

- 14 county residents received continuing legal education training in compliance with the Alabama State Bar
- 14,551 half credits earned through virtual learning courses offered to public and private high school students through ACCESS Virtual Learning
- Visits made to elementary, middle and high schools to provide an educational program on topics such as Alabama’s geologic history, paleontology, general geology, water ecology and conservation, aquatic biodiversity, soil types, evolution, and watershed education
- Enhanced the educational materials available to tourists and area residents to increase the revenue associated with visitation at one birding trail’s outdoor classroom
The data in this report is for the five-year period ending in 2017. Special thanks to Dr. Samuel Addy, associate dean of economic outreach, and Mr. Ahmad Ijaz, executive director and director of economic forecasting for providing economic impact data.
